

Intro to: Early Childhood Environment Rating Scale (ECERS-R)

Quality consists of the various interactions that go on in a classroom between staff and children, staff, parents and other adults, among the children themselves, and the interactions children have with the materials and activities found in their environment.

In this 2 part session, participants will learn to use the ECERS-R environmental assessment tool. As a follow-up to the workshop, participants will use the tool at their own site to earn a certificate.

This training meets the Raising the Bar PE requirements of 'trained in the use of an environmental assessment tool.'

Join your peers for time to discuss and reflect on the essential elements of an early childhood setting where children can thrive from a sense of belonging.

Presented by Trish Bucholtz, RTB Coordinator, ELF Mentor

Tuesday March 6 & April 3, 2012

6:30 - 8:30

Raising the Bar Office

236 Parkhill Rd. E.

Cost: \$25.00 (cost includes book)
